Inventory Tracking

- Track inventory levels, receive notification for reordering and manage historical inventory levels

Meritide Success Story

Meritide recently helped a large health plan provider develop a collaborative SharePoint system for their employees. Meritide's solution provides easy access to policies and process documents. The result is a one-stop web based shop for everything that was vital for employees to do their jobs, manage their benefits, and understand corporate policies and processes.

Why SharePoint?

Personalization and collaboration of the information needed to do your job. Meritide's solutions using SharePoint will help drive business outcomes by simplifying the interactions needed when using multiple systems that are usually required to track goals and manage business processes.

Why Meritide?

Competence. Integrity. Vision.

Meritide's consultants and software developers provide solutions based on years of real-world experience with a broad range of industries and technologies. Simply put, we know what works – and we've got the results to prove it.
